

On February 17, 2009, the American Recovery and Reinvestment Act (ARRA) was passed by Congress and signed into law by President Obama. ARRA provides increased support to several existing federal programs administered by states, creates new programs such as the State Fiscal Stabilization Fund, and offers opportunities for states to apply for competitive grant programs.

The American Recovery and Reinvestment Act's significant investment in North Carolina totaled almost \$19.5 billion, including assistance for those needing help the most through increases in unemployment benefits, Medicaid payments, and food stamps. In addition to those expanded services, ARRA gives hundreds of thousands of working North Carolinians a break through tax credits like the *Making Work Pay* tax credit and the *First Time Homebuyer's* tax credit.

The Recovery Act is not like earlier attempts to revive the nation's economy. It is not only a one-time infusion of federal funds; instead it is a long-term effort to restore economic expansion in the short-term, as well as prepare the nation's economy for stable, healthy long-term growth. Under the terms of the Recovery Act, support for North Carolina's economy will include both investments made directly by the federal government and investments of federal funds that are made under the oversight of the North Carolina state government.

American Recovery and Reinvestment Act Report, Buncombe County

Buncombe County received more than \$450 million in ARRA funding in grants, loans, and bonds. The following report outlines the various funding categories that contributed to the Buncombe County total.

Pell Grants Awards:
4,602

Small Business Jobs:
1,411

Appliances rebated:
375

Family homes financed:
116

Grants: \$241,374,866.29
Loans: \$33,750,405.82
Bonds: \$178,305,965.00

Total: \$453,431,237.11

Education

The Recovery Act placed a special emphasis on maintaining education funding. Governor Beverly Perdue furthered this commitment by pledging additional recovery funds from the Recovery Act to education, and leading North Carolina to additional funds by winning \$400 million in the Race to the Top program.

Most of the ARRA education funds are distributed to local schools through existing funding formulas. Special Education Funds and Title I funds go to schools based on eligible student enrollment. State Fiscal Stabilization Funds (SFSF) and the EduJobs grants were designed to hold schools harmless during the recession, and were distributed to public and charter schools. The school systems have spent the majority of the funds on staff and support. Some projects, such as Race to the Top, will be spent for purchasing products and services rather than salaries for staff.

Authorization for low/no interest bonds for school construction/renovation followed the Department of Public Instruction procedures with initial allotments to the school systems. If a school system could not utilize their allotment, it was released to other school systems that could utilize additional allotments.

Buncombe County schools received \$52 million in education funding, including \$6.8 million in Special Education funds, \$5.7 million in Title I funds, \$23 million in SFSF funds, \$4.8 million in Race to the Top funding and a \$5.6 million bond allocation.

Pell Grants are an educational Assistance Program that provides grants to eligible students to receive post-secondary or vocational training. Because Pell Grants are not student loans, they allow students to receive financial assistance to further education and training without incurring additional debt. The American Recovery and Reinvestment Act increased the eligibility and the maximum amount of Pell Grants in 2009 and 2010 as a way to encourage educational opportunities, and to provide a way for eligible applicants to gain new job skills.

Buncombe County Asheville Technical Community College, Montreat College, South College, Warren College, and the University of North Carolina at Asheville had 4,602 students funded by Pell Grants; these grants were worth more than \$6 million.

Family Assistance

The Federal Department of Agriculture increased funding to their Single-Family home program with the ARRA. These resources assisted families in achieving the American Dream of home ownership through direct financial assistance (grants) or credit (loan guarantees). This program pumped more than \$729 million into North Carolina, providing assistance to more than 5,400 families.

In Buncombe County, 116 families received assistance through this program totaling more than \$18 million.

The Department of Energy created the Energy Star Appliance rebate program to help stimulate the economy by incentivizing the purchase of new, more energy efficient appliances, and helping consumers by providing long-term

savings from their utility bills. The State Energy Office in the North Carolina Department of Commerce managed the program insuring North Carolina residents and retailers received the maximum benefit from this opportunity. North Carolina retailers sold more than 25,500 new energy efficiency appliances through this program, and North Carolina residents will enjoy energy savings for years to come. The program was so successful, that the State Energy Office reprogrammed additional funding to provide discounts to everyone participating in the program, bringing the total program value from \$8 up to \$10 Million.

Buncombe County retailers sold 375 appliances through the Energy Star Appliance rebate program.

Small Business Assistance

The ARRA provided tax breaks, increased depreciation of business assets, and incentives for hiring for small businesses through the tax law changes found in Part B of the Act. The Recovery Act also established direct aid programs through the federal Small Business Administration (SBA) and US Department of Agriculture (USDA). These programs provided grants, loans and loan guarantees to grant small businesses access to much-needed operational credit during 2009 and 2010.

In Buncombe County 63 small businesses received SBA loan guarantees worth \$14.5 million. According to the small businesses receiving these loans, the Recovery Act saved or created 1,411 jobs.

Farm Assistance

The Supplemental Revenue Assistance Payments (SURE) Program is administered by the Farm Services Administration in the federal Department of Agriculture, which provides assistance to farmers suffering crop losses due to natural disasters. To qualify for the program a farm must have lost at least 10% of one crop during a natural disaster in a declared disaster county, or lost 50% of a crop during a disaster in a non-disaster county. North Carolina farmers received more than \$9 million in total payments under the ARRA-Funded SURE Program.

In Buncombe County, \$14,572 was received in assistance to farmers because of crop loss to natural disasters.

CARS Program

The Car Allowance Rebate Program (CARS), more widely known as the 'Cash-for-Clunkers' program, provided an incentive for drivers of older, energy inefficient vehicles to upgrade to new cars. This program also provided a large economic impact in North Carolina, and North Carolina dealers received more than 18,000 trade-in vehicles through this program. North Carolina Car Dealers sold more than \$400,000,000 worth of new cars (recommended MSRP) through the CARS program. North Carolina drivers will save 172,130 miles per gallon through cars purchased through this program.

In Buncombe County, car dealers sold 650 cars worth more than \$13.5 million through the ARRA CARS program.

Justice and Public Safety Programs

ARRA increased funding to the federal Byrne Justice Assistance Grants Program (JAG). JAG funds were awarded both as a formula allocation to the State, for \$34.5 million, and grants distributed by the Governor's Crime Commission to various local governments and entities. In addition, \$21,853,798 went to 216 local governments across the state for various purposes in line with the requirements of the act. Finally, there is a federal competitive portion that was open to state or local government applicants.

In Buncombe County, the City of Asheville received a federal competitive JAG award worth \$372,000.

Environment and Natural Resources Programs

ARRA funded several programs to protect the environment, or to develop natural resources more efficiently. These programs ranged from environmental clean-up, such as leaking underground storage tank abatement and Brownfields programs, to EPA clean air grants, wildfire prevention grants, and revolving funds to build, expand, or overhaul existing water and sewer programs. These programs provided nearly \$150 million across North Carolina.

In Buncombe County, the Land of Sky COG received \$660,000 for a Brownfields project. In addition, the City of Asheville, Town of Black Mountain, Town of Montreat and the Land of Sky COG received grants worth more than \$5 million for water and sewer projects from the ARRA.

The US Forest Service, within the Federal Department of Agriculture, established the Wildland Fire Management program, with ARRA funds. This program seeks to prevent the loss of life and property by minimizing the amount of organic material available as fuel for wildfires on public lands. This program is operated through the North Carolina Department of Environment and Natural resources.

In Buncombe County, the Land of Sky COG used a Wildland Fire Management Grant worth \$2 million to enhance public lands.

Green Energy Programs

One of the goals of ARRA was to provide grants to help conserve energy and assist in the development of a green economy. The State Energy Office in the North Carolina Department of Commerce received large grants for energy conservation under the American Recovery and Reinvestment Act. These grants include the Energy Efficiency Conservation Block Grant (EECBG), funded at just under \$20 million, and the State Energy Plan (SEP), funded at \$70 million. The State Energy Office then used these grants to make awards to businesses, non-profits, and local governments for various purposes.

In Buncombe County, Asheville City Schools, Buncombe County Schools, and Asheville Technical Community College Buncombe County received EECBG grants for more than \$500,000 for lighting retrofits and lighting controls. YMCA of Western North Carolina, Buncombe County received an SEP grant for \$24,719 for a solar thermal rooftop collector system projected to supply 1,000 gallons per day of hot water used for showers and janitorial purposes at the YMCA in Asheville. The Green Business Fund, with a grant from the State Energy Office, made 2 awards in Buncombe County worth more than \$500,000.

Military Programs

The American Recovery and Reinvestment Act included approximately \$7.4 billion in defense-related appropriations. This includes funding for all service areas and the Army Corps of Engineers. Recovery Act funding addressed some of the unique economic pressures faced by American service members because of their voluntary commitment to serve our nation. The Recovery Act included assistance to service members, upgrades aimed to improve the quality of life for troops and their families, funded three new facilities, and two new VA hospitals in North Carolina, addressing critical needs across the state. In addition to providing much needed facility improvements, this bill also provides more funding for our energy research programs, so that Department of Defense (DOD) can continue to lead the way in the national effort to achieve greater energy independence. North Carolina had 103 military projects funded for a total of \$166 million.

In Buncombe County, the Veterans Administration granted the North Carolina Department of Veterans Affairs \$13.5 million for the construction of a 100-bed State Veterans Home.

Safety Net Programs

Safety net programs are the category of ARRA funding that consists of programs designed to help populations made particularly vulnerable by the economic crisis. These generally include increases in existing programs, most notably the increase in both benefit level and duration of unemployment payments. Increases in the amount and duration of unemployment payments makes up the largest chunk of safety net programs funded through the Recovery Act, totaling more than \$3.5 billion statewide over more than two years. Safety net programs such as unemployment insurance and SNAP (formerly known as Food Stamps), not only benefit the recipient, but have a proven economic impact on a community.

Buncombe County residents received more than \$64 million in Unemployment Insurance increases during the 2 ½ year ARRA benefits increase. County residents also received \$13.3 million in SNAP benefit increases, and \$12.3 million in one-time payments of \$250 to social security recipients.

Buncombe County received more than \$400,000 for Head Start Programs.

Buncombe County Feature Story

Buncombe County Leverages Recovery Funds for Business Growth

One of the goals of the American Recovery and Reinvestment Act was to save and create jobs to stimulate economic growth. The Recovery Act funded many programs in furtherance of this goal, including the Build America Bonds (BAB) operated out of the US Treasury. The Build America Bonds made the ARRA program available to local governments or industries partnered with local governments to provide low cost capacity for new or renovated facilities. Recovery Zone Bonds provides local government and private industry with a method of funding construction and improvement of facilities within issuer-designated “Recovery Zones” defined by the Treasury as an area with “significant poverty, unemployment, home foreclosures or general distress.” U.S. Treasury allocated authority to issue Recovery Zone Bonds to 94 counties and 7 municipalities in North Carolina.

Recovery Zone Facility Bonds (RZFB) are private activity bonds that finance a private use in a designated recovery zone. Bonds may be used for capital expenditures, industrial parks, public infrastructure and construction of public facilities. RZFBs may be used for rehabilitation, renovation, and improvement for a trade or business other than specific federally designated prohibited activities. North Carolina received an allocation of \$418,154,000 for RZEDBs and \$617,231,000 for RZFBs. In North Carolina, the BABs funded several important public and private construction and renovation efforts, including the construction of a new frozen-food distribution center for Ingles Grocery in Asheville.

Ingles Markets is a true North Carolina home-grown business. Begun 40 years ago in a single store in Asheville, Ingles has grown through a family commitment to hard work and low prices. Founder Robert Ingle prospered by opening stores in rural towns in North and South Carolina who were underserved by existing large-chain stores. This strategy proved so successful that expansion into similar communities in Georgia, Tennessee, Alabama, and Virginia soon followed. Ingles now operates approximately 200 stores in six south-eastern states.

Ingles had been looking to expand and consolidate its regional distribution, and took advantage of the opportunity represented in the ARRA-funded Build America Bonds. Ingles, working with state and local entities such as the North Carolina Department of Commerce, the Buncombe County Industrial Facilities, and Pollution Control Financing Authority, issued almost \$100 million in Recovery Zone Facility Bonds, a subset of the BAB program, to finance a new distribution center in Asheville.

The new facility will be located in Black Mountain on a 46 acre lot located on Hwy 70. The 830,000 square foot warehouse and distribution center will help streamline Ingles’ distribution of frozen foods to their stores across the south. The cutting-edge facility consists of 770,000 square feet of cooler and freezing space with temperatures ranging from 55° to -20°, a 20,000-square-foot ice facility and a three-story, 45,000-square-foot Class A office space.

Around 275 jobs have been created during the construction of this facility. The bonds will also help finance a new 80-100,000 square foot grocery store to be located at or near the intersection of Smokey Park Highway and Cooper Boulevard in Asheville.

ⁱ Recipient Role are as follows: P is a prime recipient; S is a Sub-recipient; PV is a vendor to a prime recipient; SV is a vendor to a sub-recipient; L is a loan recipient.

ⁱⁱ Prime Amounts are unique prime awards within a county. These are entities who have received funding directly from a federal agency, and are required to report directly to www.federalreporting.gov

ⁱⁱⁱ Unique Sub Awards are amounts that flow into a county from a source that is NOT directly from a Federal Agency. Generally these are funds awarded to the North Carolina State Government that have been directed to a local source.

^{iv} Additional Economic Activity are economic activity attributable to a previous funding category. They may be a sub award by a prime recipient within a county, or a contract funded by one of the previous three columns. This economic activity is not counted toward the county total.
